DETAILED ACTION

1. This action is in response to the communication 03/28/2008. New Claims 43-59 were added. Claims 1 – 59 are currently pending. Please refer to claim 13 and claim numbering objections.

Claim Objections

2. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Examiner requests the Applicant to explicitly cancel claim 13 and amending the claims 14-42 by renumbering.

Response to Arguments

3. Applicant's arguments with respect to Claims 1-12 and 14-42 have been fully considered and are persuasive. The 35 USC 103(a) rejection of claims 1-12 and 14-42 has been withdrawn. However, the newly introduced claims 43-59 are rejected under 35 USC 101 and requests the Applicant to cancel claims 43-59.

Allowable Subject Matter

4. Claims 1-12 and 14-42 are allowed.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 43-59 rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 43-59 are not limited to tangible embodiments. In view of applicant's disclosure, specification paragraph [0045], the medium is not limited to tangible embodiments, instead of being defined as including both tangible embodiments (e.g. storage medium) and intangible embodiments (e.g. wireless channels). As such, the claims are not limited to statutory subject matter and is therefore non-statutory.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
